EXPERIENCE

Sushi Bombs — Sushi Chef/Server

June 2023 - Present

- Collaborate with the culinary team to create diverse sushi dishes, leveraging Japanese cuisine for a 30% boost in repeat customers.
- Maintain an accurate inventory of ingredients and supplies, resulting in an 8% reduction in costs.
- Optimized customer experience through tailored recommendations, resulting in a 25% improvement in average order value and enhanced customer satisfaction ratings.

Freelance - Full-Stack Software Engineer

June 2023 - Present

- Led client engagement sessions to gather project requirements, align stakeholder expectations, and establish project objectives, resulting in a streamlined workflow and improved project success rate.
- Stay updated on industry trends, new technologies, and continuously improve and enhance skills to adapt to evolving technologies.
- Built front-end web page for a small business : Tasty Maria (<https://tastymaria.com/>). Employed React framework to optimize rendering of the app's components, and styled user interface utilizing React Bootstrap and mobile responsive CSS.

General Assembly — Software Engineering Apprenticeship

March 2023 - June 2023

- Mastered programming languages, databases, front-end and back-end applications, and data structures through the completion of an immersive online program, acquiring comprehensive web development knowledge.
- Strengthened technical expertise through hands-on projects, resulting in a growth mindset and a 25% boost in efficiency and effectiveness.
- Developed and deployed 4 functional web applications, both individually and in group settings within tight 5-day deadlines including:
 - **True Fitness App:** Architected a dynamic full-stack approach, utilizing Node JS and Express for the backend, EJS templates for the frontend, and Mongoose database for data preservation, ensured user data security through Google OAuth.
 - **Sweet Treats:** Launched a tailored functional e-commerce website, implemented React, HTML and CSS to assemble web page structure and design.
 - **Safari-Match:** Designed a memory card browser-based game, built with standard HTML and CSS to format user interface, constructed the logic and performance of the app by incorporating JavaScript.

Fl Homes Realty & Mortgage — Real Estate Agent

July 2022 - January 2023

- Spearheaded the implementation of strategic negotiation tactics, yielding a remarkable 28% improvement in customer sales prices and driving a substantial 30% increase in cross-functional team collaboration.
- Implemented CRM, FormSimplicity, Trello, and Google Spreadsheets to provide personalized support to clients, resulting in a 15% growth in repeat business.
- Streamlined cross-functional communication channels through the implementation of Zoom, Slack, and Google Meet; improved productivity by enabling efficient information sharing and reducing response time by 40%.
