### EXPERIENCE

#### Sushi Bombs — *Sushi Chef/Server*

June 2023 - Present

- Collaborate with the culinary team to create diverse sushi dishes, leveraging Japanese cuisine for a 30% boost in repeat customers.
- Maintain an accurate inventory of ingredients and supplies, resulting in an 8% reduction in costs.
- Identify customer concerns through clear communication and leadership, resulting in a 15% increase in customer retention.
- Optimized customer experience through personalized recommendations, resulting in a 25% improvement in average order value and enhanced customer satisfaction ratings.

#### Freelance - *Full-Stack Software Engineer*

June 2023 - Present

- Led client engagement sessions to gather project requirements, align stakeholder expectations, and establish project objectives, resulting in a streamlined workflow and improved project success rate.
- Stay updated on industry trends, and new technologies, and continuously improve and enhance skills to adapt to evolving technologies.
- Built a front-end web page for a small business: Tasty Maria (<https://tastymaria.com/>). Employed React framework to optimize rendering of the app's components, and styled user interface utilizing React Bootstrap and mobile responsive CSS.

#### General Assembly — *Software Engineering Apprenticeship*

March 2023 - June 2023

- Mastered programming languages, databases, front-end and back-end applications, and data structures through the completion of an immersive online program, acquiring comprehensive web development knowledge.
- Strengthened technical expertise through hands-on projects, resulting in a growth mindset and a 25% boost in efficiency and effectiveness.
- Developed and deployed 4 functional web applications, both individually and in group settings within tight 5-day deadlines including:
  - **True Fitness App:** Architected a dynamic full-stack approach, utilizing Node JS and Express for the backend, EJS templates for the front end, and Mongoose database for data preservation, ensuring user data security through Google OAuth.
  - **Sweet Treats:** Launched a tailored functional e-commerce website, and implemented React, HTML, and CSS to assemble web page structure and design.
  - **Safari-Match:** Designed a memory card browser-based game, built with standard HTML and CSS to format user interface, constructed the logic and performance of the app by incorporating JavaScript.

#### Fl Homes Realty & Mortgage — *Real Estate Agent*

January 2022 - January 2023

- Spearheaded the implementation of strategic negotiation tactics, yielding a remarkable 28% improvement in customer sales prices and driving a substantial 30% increase in cross-functional team collaboration.
- Implemented CRM, FormSimplicity, Trello, and Google Spreadsheets to provide personalized support to clients, resulting in a 15% growth in repeat business.
- Streamlined cross-functional communication channels through the implementation of Zoom, Slack, and Google Meet; improved productivity by enabling efficient information sharing and reducing response time by 40%.
- Enhanced data accuracy by streamlining the customer records database, reducing duplicate entries by 30%.

### TECH SKILLS

- HTML
- CSS
- JavaScript
- Python
- React
- Nodejs
- Express
- Django
- MongoDB(Mongoose)
- SQL Database
- Tailwind
- Bootstrap
- AWS
- RESTful APIs
- Github

### OTHER SKILLS

- Customer-Centric Listening
- Proactive Mindset
- Learning Agility
- Technical Conflict Resolution
- Cross-Functional Collaboration
- Networking
- Feedback Loop

### LANGUAGES

- English
- Spanish

### EDUCATION

- **General Assembly - Full Stack Software Engineering Immersive**  
March 2023 - June 2023
  - 500+ hours course program
- **Udemy - MERN Infrastructure**  
August 2023 - November 2023
  - 13+ hours course program
- **Department of Business & Professional Regulation - Real Estate Sales Associate License**  
October 2021 - December 2023
